

# SHERMAN'S DOCTORS HOLD CONSULTATION BEFORE OPERATION

## Vice-Presidential Candidate's Condition Subject of Conference at Hospital in Cleveland Where He Was Hurriedly Sent.

To the Editor of The Evening World:  
Mr. Sherman very comfortable; don't think he is to be seriously ill.  
MYRON T. HERRICK.

CLEVELAND, June 23.—The physicians attending James S. Sherman, Republican nominee for the Vice-Presidency, who is seriously ill at the Lakeside Hospital here, this afternoon decided to hold a consultation before performing an operation on the patient.

No authorized bulletin was issued relative to his condition, but it was reported this afternoon that he was resting quietly after a restless period following his arrival at the hospital.

Physicians were summoned from Baltimore and from New York who were familiar with Mr. Sherman's malady. Dr. Finney, of Baltimore, was asked to come on a special train, but a telegram was received from him, saying he was ill and could not come.

Dr. George W. Boskowitz, of New York, is expected to arrive at the earliest possible moment.

Mr. Sherman, who has been ill here for the past three days, was taken with a severe chill at 4.30 this morning. Physicians were immediately called. It was found that Mr. Sherman was suffering from gall stones.

It was decided to remove Mr. Sherman from the home of ex-Gov. Herrick to a hospital at once.

Mr. Sherman was taken to the Lakeside Hospital at 10 o'clock, having been brought from ex-Gov. Herrick's residence in an invalid carriage. Apparently the patient was none the worse as a result of the journey of five miles between ex-Gov. Herrick's home and the hospital.

Wife Hastens to Cleveland.  
Ex-Gov. Herrick this morning got into communication with Mrs. Sherman over the long-distance telephone. She was greatly agitated upon hearing the condition of her husband, and declared her intention of coming at once to Cleveland. An effort to persuade her not to come at the present time failed and she and her son, Richard U. Sherman, an instructor in Hamilton College, at Clinton, N. Y., started for this city.

Congressman Sherman suffered a similar attack in New York City two years ago while serving as chairman of the Republican Congressional Campaign Committee. He was then taken seriously ill, but no operation was performed.

Congressman Sherman came here from Cincinnati last Sunday and at once went to the home of ex-Gov. Herrick. There he was forced to take to his bed yesterday.

The operation itself is not necessarily dangerous. There is a large percentage of recoveries, though, according to physicians, there is always danger of complications.

Taft Wires Anxiously.  
The following telegram was received by Mr. Sherman from Secretary William H. Taft this afternoon:

"NEW HAVEN, Conn., June 23.—Am greatly distressed to hear of your illness. Hope Gov. Herrick will keep you advised of your restoration to health, which I constantly pray may be rapid."  
"WILLIAM H. TAFT."

Speaking of Mr. Sherman's illness, ex-Gov. Herrick said:

"Mr. Sherman first was taken ill upon the train Sunday morning on the way from Cincinnati here. While in the sleeper the pains came on and he at once realized what it probably meant. Upon arrival at my home Dr. Edward P. Carter and Dr. Dudley P. Allen were called. They were with Mr. Sherman more or less all Sunday and Monday. This morning, following the apparent serious nature of his illness, the physician ordered that he be taken to a hospital, where he could be better attended in the event an operation was found to be necessary. He was taken at a time when the trip in the invalid carriage did no harm."

Owing to the fact that Dr. Finney, of Baltimore, did not come to the bedside of Mr. Sherman, an effort was made to reach Dr. William Mayo, of Rochester, Minn., a noted specialist and surgeon, who, Mr. Sherman hoped, would be able to attend in case an operation was deemed necessary.

H. E. Devedork, Mr. Sherman's secretary, telegraphed Congressman Taft, asking him to have Dr. Mayo come to Cleveland at once.

MRS. SHERMAN HURRIES FROM UTICA ON CALL.  
UTICA, June 23.—Word was sent to the family of James S. Sherman in this city early today that the Vice-Presidential candidate had been compelled to go to a hospital in Cleveland, O., and that Dr. Finney, of Baltimore, who attended Mr. Sherman during an attack of the same trouble in Washington last year, had been summoned by special train.

Mrs. Sherman and one of her sons left for Cleveland by the first train. The news received here is very disquieting and it is said that Mr. Sherman is in a serious condition. Extensive arrangements had been made to give him a great reception on his return this evening and special trains from all sections of Central and Northern New York had been arranged for in order to bring people to the city.

SHERMAN'S DOCTOR ILL; CAN'T OBEY HIS SUMMONS.  
BALTIMORE, June 23.—Dr. J. M. T. Finney, who is an eminent surgeon of this city, is confined to his bed with an attack of lumbago. It was said at the residence of Dr. Finney that he would not be able to leave for Cleveland.

Dr. Finney declined to state the nature of the malady for which he attended Mr. Sherman at Washington.

PHYSICIAN FROM THIS CITY WILL GO TO SHERMAN.  
Dr. George W. Boskowitz, of No. 140 West Seventy-first street, attending physician of James S. Sherman, Republican Vice-Presidential candidate, received a telephone message today from the son of Mr. Sherman, asking him to come to Cleveland to attend his father.

Dr. Boskowitz said that he would leave for Cleveland on the Lake Shore limited at 5.30 this evening.

ILLNESS PUTS COMMITTEEMEN IN A QUANDARY.  
CHICAGO, June 23.—When apprised of the serious illness of Mr. Sherman, today, Harry S. New, chairman of the National Committee, expressed great regret.

While the friends of Mr. Sherman took a hopeful view of his case, the question naturally arose regarding the course of procedure in case of his death. Mr. New was of the opinion that in such event the National Committee would have full power to name a Vice-Presidential candidate.

They are, he said, vested with similar power with regard to the Presidential candidate, but said that where there was sufficient time before election to do so the committee would reassemble the convention and have a nomination made in the regular way.

While there is no precedent to guide the National Committee in filling a vacancy, there seems to be no doubt that the committee has authority to name a candidate for Vice-President in the event of the death of Mr. Sherman.

Joe Lloyd's popular song hits, "When it's Moonlight on the Prairie," will have a formidable rival in her new sensation, "Always Come with the Summer," which the Sunday World will present this week—2,380 MORE than the Herald or ANY OTHER New York newspaper.

I'm a pleasure seeker  
From 'way out West;  
I came East  
For a fortnight's rest.  
But World "Resort" Ads  
Give such tempting information  
That I shall prolong  
My two weeks' vacation.

## TAFT IS DEEPLY CONCERNED OVER NEWS OF SHERMAN

### Takes Optimistic View of Case, Though Much Affected.

(Special to The Evening World.)  
NEW HAVEN, Conn., June 23.—Secretary Taft was informed of the serious illness of Congressman Sherman today just as he was entering the meeting of the Yale Alumni, by an Evening World reporter.

"While I am deeply concerned about Mr. Sherman's condition," he said, "I think really the danger is not so great as the extreme pain of gall stones would lead one to think."

"Former Gov. Herrick told me before I left Ohio that it was possible Mr. Sherman would have to undergo an operation for gall stones before long. I feel the deepest sympathy with Mr. Sherman in this terribly painful illness, but hope and trust he will come through the operation very successfully and be feeling as well as ever within a few weeks."

## TRIFLING SHOWER LEFT ATMOSPHERE FAR MORE STICKY

### Yet the Weather Bureau Gives Promise of "Moderate Temperature" Sooner.

#### TO-DAY STARTS HOTTER

#### Later the Temperature Fell One Degree but Rose Again Before Noon.

THE TEMPERATURE.	
6 A. M.	78
8 A. M.	79
9 A. M.	79
10 A. M.	78
11 A. M.	81
12 M.	83
1 P. M.	80
2 P. M.	80
3 P. M.	83
4 P. M.	83
5 P. M.	80
6 P. M.	79

The clouds the weather man promised for to-morrow arrived before midnight, and shortly before 1 o'clock this afternoon there was a trifle of a shower. The light breeze that came in from the east did not dispel the humidity and the sticky heat lay over the city like a soaking sheet. The mercury nipped a little in its vibrations and sank a few pegs, but not enough to bring relief to the panting thousands in the tenement-house districts.

If the local prophet is right New York is in for two days and perhaps more of cloudiness and showers. The Weather Bureau in Washington sent out a promise of relief from the hot weather early today. A bulletin told of the existence somewhere out on the Western plains of a full-size thunderstorm coming in this direction at a pretty lively clip. It was supposed to hit the Mississippi and Ohio Valley to-morrow and to arrive in the East on Thursday, but there may have been a slight miscalculation, as the clouds that obscured the sun this afternoon are likely to prove the advance courier of that same thunderstorm.

Although today started off two degrees hotter than yesterday, the list of cases of prostration reported before the rain came up was much smaller than the number for the corresponding time yesterday.

IN NEW YORK the weather prostrations were:

VENEZIOS, CHARLES, nineteen years old, No. 27 West Twenty-ninth street, overcome at No. 118 West Twenty-fourth street and taken to New York Hospital.

The following cases of prostration from the heat in Brooklyn were reported:

MARTIN, JOHN, thirty-eight years old, No. 37 Lawrence street; overcome while working on the roof of No. 113 North Elliott place. Taken home.

LEACH, MARTIN, thirty-nine years old, No. 125 Berry street. Taken to the Williamsburg Hospital.

ANGELA, TERESA, twenty-four years old, No. 125 Berry street; overcome at Borough Hall. Taken home.

IRVING, HARRY, four years old, of No. 44 Warren street, climbed to the window sill of his home in an effort to get some air and slipped and fell three stories to the street. The child's skull was fractured and he was taken to the Long Island College Hospital.

MICHAEL, STANLEY, twenty-two years old, of No. 125 Berry street, first street, overcome at the Long Island College Hospital.

MORE, JOHN, fifty-three years old, of No. 149 Bergen street, fell unconscious from the heat at Herkimer street and Albany avenue, and was taken to St. John's Hospital.

Some Freaks of Yesterday.  
While it was expected those who work would suffer most from heat, a summary shows that of the twenty-six or more prostrations reported yesterday, eleven are women who do not work.

While the official temperature yesterday did not go above 86, many thermometers near the street registered 90, and the breeze was mostly hot air that failed to relieve.

On Staten Island Supreme Court Justice and Blackman were at light speed instead of his official gown, declaring "too much dignity in hot weather is wearisome."

Many horses in Manhattan have succumbed to the heat, and unusual efforts are being made by the Humane Society to provide efforts for the animals at various points throughout the city.

PALMER AMONG CHICAGO VICTIMS OF HEAT WAVE.

CHICAGO, June 23.—The excessive heat continued today to add to its victims, and before the day was far advanced had claimed six. Numerous prostrations were reported. One of the first to succumb was Edwin Palmer, a nephew of the late Potter Palmer, and for nineteen years secretary of the Chicago Hotel Company.

William Detting, fifty-five years old, drank poison in front of his home, No. 56 North State street, and died within a few minutes. He had told friends that he could not sleep, owing to the heat.

A man jumped from the Clark street bridge after he had complained of the heat to persons loitering on the structure.

## LOCOMOTIVE EXPLODES AND KILLS THREE MEN

### Pennsylvania Workmen Blown to Bits With Train at Station.

NEW BRUNSWICK, N. J., June 23.—Three men were killed by the blowing up of a locomotive on the Pennsylvania Railroad at Stetson, two miles from here, this afternoon.

The locomotive was drawing a work train, carrying a gang of track workmen.

The dead are: William Roberts, forty-five years old, of New Brunswick, engineer.

John Holman, thirty years old, of New Brunswick, fireman.

Robert Donnelly, fifty years old, of New Brunswick, flagman.

The accident blocked three of the four tracks, two east-bound and one west-bound track being held up. Donnelly was flagman at the crossing at Stetson.

It is said that, besides the three killed, there were no other casualties. The train was known as a construction and carried twenty-five workmen.

It was just at the Stetson crossing when, without any apparent warning, the boiler of the engine blew up with a report which was heard half a mile away.

The engineer and fireman, who were at their posts were blown a considerable distance and so badly mangled that they were not recognized. The flagman, who was at the crossing, was killed and also badly mangled, besides being struck in the head by a piece of flying metal. He too, was dead when picked up.

The locomotive was completely wrecked.

## LOUISIANA VOTES TO KILL RACING IN NEW ORLEANS

### California Is Now Only Open Spot for Horsemen Who Race in Winter Time.

(Special to The Evening World.)  
BATON ROUGE, La., June 23.—The Anti-Race Track Gambling bill passed the Louisiana Legislature this afternoon and now only needs the signature of the Governor to become a law.

The bill has been bitterly fought by the New Orleans racing interests and was held up by various devices until today, when it was passed by a close vote.

This means the closing of the last resort for horsemen who want to race their stables in the winter time with the exception of those who can afford to ship their strings to California.

Los Angeles, Oakland and Seattle are the only spots now available for the winter feed money. Even Seattle holds only short meetings, so it is up to Los Angeles and Oakland to keep the racing game alive this winter.

## GAS KILLS THREE IN HOLD OF SHIP RAISED FROM RIVER BOTTOM

(Continued from First Page.)

Staten Island, volunteered to go down to the rescue.

Fell Beside the Others.  
Hansen descended with a net cloth over his mouth, but he fell over before he had time to affix the ropes to the prostrate figures in the hold.

Capt. Kevin summoned two divers, Buick and Peterson, and they descended and attached the ropes. When Hansen was taken out it was found he had a rope around his neck.

Alas Whitman, the "strong man" of the police force, rode up on his wheel and sent a hurry call for doctors. Capt. Kevin and his men applied their own restoratives, and tried artificial respiration, but when Dr. Muckle arrived he pronounced Menus, Vorklund and Fabricius dead. He carried Hansen away to the hospital.

Capt. Kevin was arrested on a charge of criminal neglect. He said the gas had accumulated from the coal in the hold.

"We had no idea it was there until Menus fell over," he said. "Nobody is sorrier for this than I am. I did all I could to save the men."

Menus was twenty-five years old and lived at the Seamen's Institute, Brooklyn. The Dane lived at the Stapleton, quarters of the wrecking company. Fabricius, who was better known as "Kaiser," also lived at Stapleton.

OUT OF WORK, TRIED SUICIDE.  
But Broderick Jumped In and Saved Him.

Charles Kerrian, of No. 119 North Eighth street, Williamsburg, out of work and discouraged, leaped off the recreation pier at the foot of Metropolitan avenue, Brooklyn, this afternoon, yelling: "It's too hot to live, anyway."

John Broderick, of No. 95 Driggs avenue, leaped in after him with all his clothing on. There was a struggle in the water, but Broderick got the intended suicide to the pier, where two other men pulled him out. Dr. Mary Crawford, of the Williamsburg Hospital, revived Kerrian and took him to the hospital.

More than 500 women and children on the pier were thrown into great excitement and some of the weaker ones fainted.
